**Instructions for Installation and Care of**  
**Polaris Ranger 150 Full Polycarbonate Rear Window**  
PO-150-RW02

**NOTICE: Please check contents of package for any damage and make sure all parts fit correctly and you are happy with the product before removing protective film. Once the film is removed you cannot return the product for a full refund.**

1. Check over the parts included in the cartons with the parts list shown below:

1" Stainless Bolts	6 each
1 1/2" Clamps	6 each
Panel Fasteners	5 each
Small Washers	6 each
Thumb Nuts	6 each
Rear Window	2 pieces

**If any parts are damaged or missin, please contact customer service at (800) 213-7981.**

2. Start by pulling it out of the box; find a clean area to lay it down and install the hardware. Be sure that you don't move the window around and allow dirt to scratch the surface.
3. Begin attaching the two panels together using the white plastic panel fasteners. The top piece should overlap the bottom piece. Put the fasteners through the slots of the top piece and into the holes on the bottom piece. See photos below.

4. Now place the rear window on the vehicle and attach it to the roll cage using the 1 1/2" clamps along the sides. See photos below

5. Enjoy, and remember- when cleaning the rear window do so gently at first with warm water and mild detergent to dislodge any grit that may scratch the Polycarbonate. After rinsing and drying with a soft cloth, you may then polish the windshield with an appropriate commercially available plastic polish, also available from Falcon Ridge. This will ensure many seasons of clarity and keep scratching and swirling to a minimum. Never use cleaners such as Windex that contain ammonia as doing so may adversely affect the rear window.

**Thank You for your purchase!**

## **Return Policy**
